

Redhead Architects is an RIBA chartered practice, located in the heart of Norwich. We specialise in contemporary new-build and retrofit projects, ranging from one-off homes, city apartments, hotels, commercial and heritage projects.

We use sound design principles to seek the potential for joy in every scheme, no matter how well-hidden. We'll invite you to experience your new project in Virtual Reality, so you can be certain that you love it, well before we start building.

If you have a project in mind, please get in touch. We look forward to hearing from you.
